Fernando Gómez

Junior Full-Stack Web & Multiplatform Developer

Soria, Spain | fgomezdev2@gmail.com | fgomez2.dev | fernandogomgar | fgomez2

Summary

Web Application Development graduate (DAW) currently in the second year of Multiplatform Application Development (DAM). During my DAW internship, I maintained a corporate intranet with Laravel and PHP and automated workflows with Power Automate and SharePoint. In personal projects, I work with React, using Node.js or Spring Boot for the backend. I am currently learning Next.js. Looking for an internship in web or multiplatform development.

Experience

Solarig Global Services, Web Developer Intern — Garray (Soria), Spain
Sept 2025 – Dec 2025 — 4 months

- Maintained and improved the company intranet using Laravel and PHP.
- Automated internal workflows with Power Automate integrated with SharePoint.
- Worked directly with clients to develop the features they requested.

SENSOR ID, Hardware Technician Intern — Campochiaro, Italy
Mar 2022 – June 2022 — 4 months

- Worked on hardware at an RFID solutions company.
- Assembled and maintained hardware such as PCs.
- Assembled and tested RFID reader products.
- Worked in an international team using English as the working language.

Education

IES Virgen del Espino, Higher Technician in Multiplatform Applications Development (DAM) — Soria, Spain
Expected June 2027

- Spanish Higher Vocational Training (Ciclo Formativo de Grado Superior), EQF level 5.

IES Virgen del Espino, Higher Technician in Web Applications Development (DAW) — Soria, Spain
2023 – 2025

- Spanish Higher Vocational Training (Ciclo Formativo de Grado Superior), EQF level 5.

IES Virgen del Espino, Technician in Microcomputer Systems and Networks (SMR) — Soria, Spain
